Abstract J19

General Information

Title: Dr.
FirstName: Dheeraj
LastName: Shah
Email ID: jiap@nic.in
InstituteName: G.T.B. Hospital, Shahadara, New Delhi
Department: 
Address: 115/4, Ground Floor, Gautam Nagar, New Delhi - 110 049.
City/Zipcode: New Delhi / 110049
State: Delhi
Country: India
PhoneNo: 26961468
Mobile No: 9868399792
Registration Date: 28-07-2015

Journal Poster Presentation Information

JournalPosterTrackID: WAME_JP_B7484

Journal Poster Abstract: **Background:** Indian Pediatrics (IP), the official publication of the Indian Academy of Pediatrics (IAP), is a peer-reviewed journal. The journal began publication in 1963. It is a monthly publication and has a current circulation of about 22,000. Indian Pediatrics has a permanent Editorial Office situated at New Delhi. Indian Pediatrics is also available free online at www.indianpediatrics.net. The journal is indexed in PubMed, Current Contents/Clinical Medicine, Science Citation Index Expanded, Medline, Indian Science Abstracts, getCITED, POPLINE, CANCERLIT, TOXLINE, Psych Line and DERMLINE. The Impact factor of Indian
Pediatrics is 1.040. It is one of the topmost ranking specialty journal of India.

**Methods:** Indian Pediatrics is a peer reviewed journal and utilizes online manuscript management and processing system of Editorial Manager for manuscripts. Manuscripts are reviewed with due respect for authors’ confidentiality. Authors should take care not to disclose their and their institution’s identity in the text of the ‘blinded manuscript.’ The current acceptance rate of submitted articles is around 20% overall and 5% for case reports.

**Result:** Selected articles are published every month from the accepted articles. The journal gives priority to reports of outstanding clinical and experimental work as well as important contributions related to common and topical problems in India and the developing countries. Indian Pediatrics is provided complimentary to members of the IAP and on subscription to individuals and institutions. The Journal is available in both versions print and electronic.

**Conclusion:** The general objective of Indian Pediatrics is to promote the science and practice of Pediatrics. The specific key objectives are to publish original, relevant, well researched peer reviewed articles on issues related to child health and to foster responsible and balanced debate on controversial issues that affect child health, including non-clinical areas such as ethics, law, environment and economics.
